## Summary

A Full Stack Developer skilled in React.js, JavaScript, and modern web technologies, with a strong foundation in building responsive, scalable web applications. Passionate about learning, writing clean code, and delivering real-world software solutions.

## Technical Skills

- **Languages & Databases:** JavaScript, HTML, CSS, Python, MongoDB
- **Web Frameworks:** React.js, Node.js, Express.js
- **Tools & Technologies:** AWS, GitHub, REST APIs

## Projects

Built and contributed to 30+ full-stack, frontend, and backend projects using modern web technologies. Key projects include:

- **Music App** – A music streaming interface built with React.js.
- **E-commerce Backend** – RESTful backend APIs using Node.js, Express.js, and MongoDB.
- **Backend Library** – Modular backend utilities and middleware for scalable apps.
- **Todo Level 1 (Frontend & Backend)** – Task manager with full CRUD, built using React.js and Express.js.
- **Weather App (Level 2)** – Real-time weather updates with open APIs and dynamic UI.
- **Pizza Menu** – Responsive UI project to display and filter pizza items using React.
- **Todo Task** – A minimal task tracker with state management.
- **Mail Terminal** – CLI-based mailing tool using Node.js.
- **Tailwind Project** – UI design and layout practice using Tailwind CSS.

Technologies Used: React.js, HTML, CSS, Tailwind CSS, JavaScript, Python, Node.js, Express.js, MongoDB.
